

V kolekci DUA naleznete skleněné lisované mozaiky rozdělené do sérií, které pojí vždy společný charakterický znak. ■ Ať už je to perleťový nádech série ICE, pestrá barevnost série RAINBOW či rozmanitost tvarů v sériích FAN, LEAF, DOT, CUBE a OVAL. ■ Široká paleta barevných odstínů mozaiky 15 × 15 × 4 mm přímo vybízí k tvorbě mixů a dekorů, které připravujeme na zakázku dle přání zákazníka.

#### DUA GLASS MOSAIC

The DUA collection represents pressed glass mosaics which are divided into series, which are always distinguished by a common character: whether it is a touch of pearl in the ICE series, rich colors in the RAINBOW series or diversity of shapes in the FAN LEAF, DOT, and CUBE OVAL series. ■ A wide palette of colors of the 15 × 15 × 4 mm mosaic encourages creating mixes and decorations, which we prepare based on the customer wishes.

Stačí si rozmyslet barevné kombinace, vybrat z nabízené mozaiky zástupce a v procentech určit jeho zastoupení na jednom plátě. K doladění výsledného dojmu vybraného mixu slouží základní řada spárovacích hmot Mapei, která může významně měnit, dotvářet a podkreslovat vytvořený mix. Práce s programy je velice jednoduchá. Samozřejmě je podrobný návod postupu, který je součástí jednotlivých programů. Určitě si je vyzkoušejte i vy!

IT applications serve as a very effective means for easy custom-made visualization of a random mix. You can create your own original type of plate for interior or exterior implementation. Just think about color combinations, choose a type from offered mosaics and determine the percentage of their representation on the plate. To fine-tune the resulting impression of the selected mix, choose the Mapei basic line of grouts, which can change, finish and underline the created mix. The application is very simple. Of course there is a detailed procedure manual, which is incorporated in particular applications. Be sure to check it out!
