

Chladná elegance, nadčasovost a čistota – to jsou charakteristické znaky nerezové mozaiky. ■ Patří mezi luxusní obkladový materiál a je vysoce designovou záležitostí. Přitom má plně funkční a užité vlastnosti. Vhodná je pro interiéry i exteriéry jako obklad stěn a podlah, jimž propůjčuje nádech futurismu. ■ Velkou předností metalické mozaiky Butterfly je pryskyřicová výplň jednotlivých plíšků. Pryskyřice dodává materiálu flexibilitu a zároveň pevnost, proto při větší zátěži plochy nedojde ke zdeformování mozaiky. ■ V nabídce Butterfly je nerezová mozaika zastoupena v několika různých formátech a typech povrchů.

METAL MOSAIC

Cool elegance, timelessness and purity—these are the characteristics of stainless steel mosaics. ■ They belong to the luxurious tiling material and constitute a stylish design issue. At the same time they have fully functional and useful qualities. They are suitable for both interiors and exteriors for wall and floor tiling; as a result they provide a touch of futurism. ■ The big advantage of a metallic Butterfly mosaic is the resin filling of individual sheets. The resin provides the material with both strength and flexibility; therefore even when the surface is heavily loaded, the mosaic does not get distorted. ■ Butterfly offers the stainless mosaic in several different sizes and types of surfaces.

● Při čištění nepoužívejte prostředky s obsahem chloru nebo kyseliny chlorovodíkové, na nerez by mohly zůstat šedé a bílé skvrny. Nevhodné pro čištění jsou ostré drátěné kartáče způsobující poškrábání povrchu. / When cleaning, do not use agents containing chlorine or hydrochloric acid, the stainless steel could remain mottled with gray and white spots. Also, wire brushes causing sharp scratches to the surface are not suitable.

- V katalogu jsou vyobrazená reálná plata jednotlivých druhů mozaiky. / The catalog depicts real plates of particular mosaic types.
- Barevné odstíny mozaiky tištěné v katalogu se mohou nepatrně lišit od skutečnosti. / Color shades of the mosaic printed in the catalog may differ slightly from reality.
