K doladění výsledného dojmu vybraného mixu slouží základní řada spárovacích hmot Mapei, která může významně měnit, dotvářet a podkreslovat vytvořený mix. Práce s programy je velice jednoduchá. Samozejimostí je podrobný návod postupu, který je součástí jednotlivých programů. Určíte si je vyzkoušejte i vy!

IT applications serve as a very effective means for easy custom-made visualization of a random mix. You can create your own original type of plate for interior or exterior imple-

mentation. Just think about color combinations, choose a type from offered mosaics and determine the percentage of their representation on the plate. To fine-tune the resulting impression of the selected mix, choose the Mapei basic line of grouts, which can change, finish and underline the created mix.

The application is very simple. Of course there is a detailed procedure manual, which is incorporated in particular applications. Be sure to check it out!
